

Knoxville Adventist School

Financial Assistance Request

Christian Education is an investment which requires sacrifice in different forms. Tuition rates have fluctuated over the years and our complicated lives can cause financial challenges. We wish to offer a Christian Education to all students and are willing to work with families who need financial assistance.

The Knoxville Adventist School Board requires Financial Assistance Requests to go through the following process:

_____ 1. Apply to **FACTs Grant and Aid Assessment** for Financial Assistance Review. This third party program gathers financial information and provides a snapshot of the financial situation for the KAS Board to review. <https://online.factsmgt.com/signin/3GBNC>

_____ 2. Seek assistance from your **Local Church** and then inform the Principal or Treasurer of results. Local Churches are a wonderful resource for assistance and can partner with the school in financial assistance.

_____ 3. Apply to the program, **Partnering For Eternity (PFE)**. This is an excellent program that rewards students that spend time with a mentor every week with tuition assistance. This requires parents to apply to the program and commit to one hour a week supervising their child with a non-family member in their community. <https://pfe.sffcfoundation.org/School/Dashboard>

_____ 4. Become involved with the school. Supporting the school by **volunteering** with the Home & School Association, joining a classroom as a Classroom Parent, or a variety of other opportunities should be considered.

Continue to communicate with the Principal & Treasurer through this process and let us know how we can continue to support you and your family.

Thank you for taking the time to work with us for your child's Adventist Education!
